# UCPath Notice: I-619 GLACIER Updates Resulting in Overpayments

To: General UCPath Communications distribution

UCPath has identified an issue with updates submitted in the I-619 GLACIER interface (UCP-110604). Changes received mid payroll cycle resulted in duplicate pay lines, which caused overpayments for some employees.

We are currently working on identifying the impacted population. Once identified, UCPath will send a communication to each impacted employee, notifying them of the overpayment amount with repayment options.

Note: Additional queries have been implemented to ensure this does not occur going forward.

We apologize for any inconvenience.

Thank you,

UCPath
