UCPath Changes & Enhancements: December 10, 2021 – December 17, 2021

UCPath recently implemented the changes listed below. Refer to the UCPath Changes & Enhancements link on the support site for additional detail.

Job configuration changes and location specific configurations are available on the support site.

Payroll & Compensation

Summary	Date	Change Request Number
Implemented the latest Oracle tax update (21-D)	12/14/21	UCP-109205

TAM

Summary	Date	Change Request Number
Resolved the issue causing the "This site can't be reached" error when trying to access the application report	12/13/21	UCP-111548

UCPath

Summary	Date	Change Request Number
Resolved the issue causing a 404 error to appear when navigating to the CA state worksheet	12/14/21	UCP-111570

Other Updates & Reminders:

- **UCPath Upgrade:** After more than a year of planning and collaboration, UCPath successfully completed the first major UCPath upgrade in four years! Our last upgrade took place before we deployed UCPath at UCLA and UCSB! This initiative included 20 separate Oracle upgrades, as UCPath jumped from version 17 to version 37 at once. As a result, UCPath is now on a fully supported version of PeopleSoft and we are well positioned to implement new functionality that will improve both UCPath and location operations. Thanks to all our location partners for your support of this important initiative. The code freeze will continue to be in effect until December 31.

- **Training:** Navigate to UCPath > Help > Location Users to access recently updated training materials:
  - ePerformance (PHCMEPR300: Location Configuration Activities)
    - Simulation: Build and Define Group - Using Group Criteria ID
      - Updated to include the new Group Build Exceptions feature allowing exclusions and additions within the group build result set
    - Simulation: Build and Define Group - Using Query Name
      - Updated to include the new Group Build Exceptions feature allowing exclusions and additions within the group build result set

- Simulation: Define Document Template
  - Updated to reflect the following template set up options:
    - Include in Define Criteria and Include in Track Progress options are now split into two checkboxes
    - New checkboxes Employee can view before submit, and Employee can delete before submit
    - Enable users the ability to add participant feedback
    - Allow employees to add an attachment to their self-evaluations

Did you know: This will be the last weekly summary until 2022. Happy Holidays from UCPath!
